

Objs	Policies	Comments	AONB Response
Strongly agree	Strongly agree	The DAONB has demonstrated it is well able to develop and manage partnerships covering a wide range of interests to work towards a shared goal. We would welcome and support any future ambitions on this scale that contribute towards our aim to promote and enhance the conservation of wildlife, the environment and the landscape in relation to modern agricultural needs.	Support
Agree	Agree	In general we support the vision, objectives and policies in the Draft Plan, and the commitment (WOW1) to the engagement of local people in key decisions relating to their local environments in the AONB.	Support
Strongly agree	Strongly agree		n/a
Strongly agree	Strongly agree	We would welcome greater engagement with the AONB partnership and are open to more active participation in AONB working groups. At present we feel the Dorset AONB Partnership lacks visibility in our area and that the AONB team should think about having events/ meetings focused on the distinct character areas that make up the AONB	Action planning
		We are conscious that our parishioners may need more support and information about the AONB and it's management to become more engaged in and advocates for effective management of AONB assets	Action planning
Strongly agree	Strongly agree	Consistent responses to all relevant planning applications. There is a community and residents expectation that the AONB will look after the area by responding to planning applications rather appearing to be selective.	Action planning
Strongly agree	Strongly agree	In 9.4.3 (opportunities: 5th bullet point), the LAF would welcome the opportunity to be a partner, alongside the other collaborative bodies mentioned. The LAF brings together a range of stakeholders with an interest and expertise in promoting sustainable access to the countryside	Amendments made
Strongly agree	Strongly agree		n/a
Agree	Disagree	<ul style="list-style-type: none"> An immediate evaluation of the effect of Local Government Reorganisation on the way the Unitary Authority will work with the lower tier of Councils (i.e. Parishes and Towns) and what financial pressures will mean for the level of Precept Parishes have to raise to help the AONB team deliver its Mission and AMP policies. Note that Parishes / Towns decide their budgets annually in October / November. This Parish would like more detailed information on how at WOW2b to use Landscape and Seascape Character Assessments as an integral part of Parish Council work on an on-going basis, and how the AONB team might assist. This Parish is also keen to work with others to develop a Treescapes Assessment process 	Action planning
Strongly agree	Strongly agree	Paragraph 9.4.4. WOW1-4: The parish council agrees that local people should be engaged in key decisions relating to their local environments in the AONB.	Support
Strongly agree	Strongly agree		n/a
Strongly agree	Strongly agree	More of the same collaborative approach to projects and willing to lead and host partnerships where required to ensure that they are successful.	Action planning
Strongly agree	Strongly agree	9.4.3: We recommend including the full name of Dorset Local Nature Partnership	Amendments made
		Continued activities as those within previous management plans	Action planning
Agree	Agree		n/a
Strongly agree	Strongly agree	See previous comments on the creation of a 'digital hub'	Action planning
Strongly agree	Strongly agree		n/a
Agree	Agree	We support the vision, objectives and policies in the Draft Plan, and the commitment (WOW1) to the engagement of local people in key decisions relating to their local environments in the AONB	Support
Agree	Agree		
		The woodland trust believes that trees and woods offer multiple benefits across a range of policy areas, with recent research focusing on the promotion health and wellbeing. The Woodland Trust welcomes the opportunity to work closely with the AONB on this agenda. We are already engaging with the Dorset LNP on health and nature initiatives and we own and manage woods in Dorset for public benefit.	Support; action planning
